

Archery Proficiency Testing - Appendix A

1. Before allowing an individual to participate in the proficiency test, said individuals must show that they have passed a required WiDNR Hunter Safety (if born after January 1, 1973).
2. Individuals must pass an authorized archery proficiency test with the archery equipment they use in the field (equal to standards under DNR archery regulations) which will include using at least 3 separate individual arrows with hunting blades or practice blades of similar size and shape to the hunting blade. For individuals who have DNR licensing to use crossbows, like the standard archery equipment tests, will use no fewer than 3 bolts with hunting tips. No other equipment will be allowed during the proficiency test.
3. The testing will take place at La Crosse Archery, 1231 Oak Forest Dr or other announced locations. Scorers or judges at said testing locations have the right of refusal in denying or allowing an individual to participate in the testing when in their judgment there are safety issues at hand. Fees will be set yearly per agreement with the City of Onalaska Parks & Recreation Dept and participating establishments.
4. Targets will be set at 20 yards in distance.
5. Individuals can take warm up shots, but communication to the on-site instructors is required prior to start accumulation of scores.
6. Maximum of 6 arrows/bolts are shot and scored at a 6" target. To pass the Proficiency Test, the individual must place 5 out of the 6 within the target the 6" circle.
7. There will be a fee of \$10 per test to be paid to the establishment.
