FOR IMMEDIATE RELEASE

February 19, 2013

UPDATE IN THE FRYE CASE

The Onalaska Police have announced that the scene where Ms. Frye was found has been released. According to Onalaska Police Chief Jeffrey Trotnic the autopsy was completed today in Madison but the toxicology report is still pending.

A preliminary test for blood alcohol content (BAC) has been conducted by the La Crosse County Medical Examiner. The test revealed a BAC of .211. This preliminary BAC is not part of the official autopsy. Those results will be available in a few weeks.
